

Fresh Thoughts?

from a Citizen of The Greenbelt

Mark Brand, CVRP Resident

UNDERGROUND

DENHAM VILLAGE

"How sorely then we long to stay
And midst this sweetness wear the day,
And 'neath its changing shadows sit,
And feel ourselves a part of it."

Green Infrastructure

Access to green space in England
Are you missing out?

5 lessons learned from blue-green infrastructure delivery in four cities leading the way

- 1 BGI is essential to spatial planning to support the transition to greater climate resilience.
- 2 BGI is multifunctional
- 3 Hybrid approaches are an excellent intermediate step
- 4 Culture change plays a key role
- 5 Greater community engagement and co-design of projects is important
